

# Creator Application

## NW Restart Presents

## NW Creations Night Market

Our mission is to bring more awareness and support to Domestic Violence Resource Center. We wanted to host events for NW creators, having it double as a night market and donation drive made sense. We want our community to know that there are so many people that are benefitting from the support of our community.

We ask that each creator be willing to donate to DVRC. We also ask if each creator would be willing to donate a small piece of their creation to be added to a gift basket to be raffled off to a guest who has donated to DVRC.

**Thank you for your application. We have an application so we make sure not to have too many of the same creations. With limited space, at the moment, we want all creators to be comfortable and have the necessary space to sell their creations. For now, we plan to host a quarterly night market. If you are not able to attend this market we will hold on to your application and reach out for future events.**
